Allowable Subject Matter

Claims 1-2, 4-7, 9-14 and 16-19 are allowed.

The following is an examiner's statement of reasons for allowance. the claimed invention is related to a system for synthesizing speech from text by converting the text into a corresponding sequences of speech units. The claims are allowed because, after further considerations of the prior arts and the amendment the examiner finds that while Lowry's art teaches synthesizing extension sequences from the speech units for boundary closing purpose, it doesn't teach, **the boundary extension unit stored in the database as extra-segmental data** to be attached to the left and right boundaries of the speech units for extending the boundaries of the speech units as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel D. Abebe whose telephone number is 571-272-7615. The examiner can normally be reached on monday-friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Hudspeth can be reached on 571-272-7843. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
